Subject Index to Volume 2

A

Anokhin, Pyotr Kuzmich, biographical note ... 248
Anxiety: Interruption of behavior, inescapable shock, and experimental neurosis: a neurophysiologic analysis ... 285
Association for advancement of behavioral therapies, announcement of formation ... 249
Autokinesis, positive, role in protection by drugs and psychotherapy against delayed psychosomatic responses ... 77
Autonomic reflexes in man, study of (Abstr.) ... 163

B

Beagle dogs, psychogenic vagotonia in a family of ... 302
Behavior, interruption of, inescapable shock, and experimental neurosis: a neurophysiologic analysis ... 285
Blood pressure and heart rate during conditioning in curarized dogs (Abstr.) ... 158
Blood pressure, intraarterial, chronic painless recording in unanesthetized dogs ... 80
Bradycardia of the dive reflexes—a possible mechanism of sudden death ... 88
Brain damage in children, psychophysiological studies of (Abstr.) ... 165
Brain dysfunction, minimal, autonomic and motor conditioning in children with (Abstr.) ... 164
Brain dysfunction, minimal, autonomic conditioning and generalization in children with, compared with normal children (Abstr.) ... 165

C

Carbohydrate metabolism, effects of insulin and environmentally-conditioned CNS performance on regulation of ... 184
Carbon dioxide as reinforcer in escape conditioning ... 118
Cardiac conditioning, cardiodynamics of (Abstr.) ... 156
Cardiac conditioning, effects of different durations of conditional stimulus on magnitude of cardiac acceleration (Abstr.) ... 159
Cardiac conditioning in the white rat with food presentation as the unconditional stimulus ... 56
Cardiac conditioning in the white rat with food presentation as the unconditioned stimulus (Abstr.) ... 158
Cardiac death, reflex nature of (Abstr.) ... 155
Cardiac orienting response and its relationship to cardiac conditional response in dogs ... 138
Cardiac responses, persistent and emergent, elicited by simple stimuli ... 127
Cardiac responses, persistent and emergent, elicited by simple stimuli (Abstr.) ... 160
Cardiovascular changes (vagotonia) in dogs during orienting and conditioning ... 302
Cardiovascular orienting and conditional responses, successive-beat analysis ... 37
Cardiovascular recordings, method for successive-beat analysis of orienting and conditional responses ... 37
Cardiovascular system, behavioral responses of (Abstr.) ... 157
Cerebral dysrhythmia induced by pattern presentation and eye closure, conditioning of ... 236
Children, habituation of motor startle in anxious and restless (Abstr.) ... 167
Children, orienting reactions of, instrumental modification ... 227
Children, psychophysiological studies of neuroses, adjustment reactions and personality disorders in (Abstr.) ... 166
Conditional reflex formation in different diagnostic categories (Abstr.) ... 164
Conditional reflexes, instrumental, functional architecture of ... 258
Conditioning, learning and psychopathology ... 294
Cortex, steady-potential shifts obtained from nonpolarizing electrodes ... 3
Cybernetic problems of learning ... 68

D

Discrimination, conditional, role of gross locomotor restriction in acquisition of in the dog ... 277
Discrimination reversal, conditioned with minimal stimulus awareness (Abstr.) ... 164
Dive reflex, bradycardia of ... 88

E

Effect of person on nervous, stable, and crossbred pointer dogs ... 273
Electroshock, effects of external cathodal polarization on classical motor conditioning in dogs ... 216
Emotional response, conditioned in dogs, effects of three experimental conditions on (Abstr.) ... 156
Emotional response, conditioned in monkeys, cardiac and blood flow conditional responses during (Abstr.) ... 155
Epilepsy induced by pattern presentation and eye closure, conditioning of ... 236
Escape conditioning, carbon dioxide as reinforcer in ... 118
Essential works of Pavlov, by M. Kaplan (Book review) ... 178
Eye closure, conditioning of cerebral dysrhythmia induced by ... 236

F

Food presentation, as unconditional stimulus in cardiac conditioning in the white rat ... 56
Fractional conditioning in dogs, resulting from insulin effect ... 96
Fractional conditioning, schizokinesis and (Editorial) ... 85

G

Gallbladder distention and effects of drugs on heart rate, respiratory movements and cortical potentials in cats with hypothalamic lesions 113
Gastric events, perception of (Abstr.) 162
Genetically-determined abnormal behavior in dogs, implications for psychiatry ... 206
Genetically-determined abnormal behavior in dogs, results of behavioral tests ... 199
Genetically-determined behavior: effect of person on crossbred pointer dogs ... 273
Gipotalamo-gipofizarnaya Oblast' i Regulyatsiya Fiziologicheskikh Funktsii Organizma, by A. V. Tonkikh (Book review) ... 177

H

Heart rate, emergent responses elicited by simple stimuli ... 127
Heart rate, slowing, as part of oxygen-conserving reflex ... 88
Heredity, possible role in determining cardiovascular response ... 302
Heredity, role in determining behavior variations ... 199, 206
Higher Cortical Functions in Man, by A. R. Luria (Book review) ... 252
Humility in science (Editorial) ... 179
Hypothalamus, chronic lesions of in cats, gallbladder distention and effects of drugs in ... 113

I

Induction as a factor in sequential perceptual and motor skills (Abstr.) 168
Instrumental conditional reflexes, functional architecture of ... 258
Instrumental conditioning in modifying children's orienting reactions ... 227
Instrumental conditioning of heart rate in curarized rat (Abstr.) ... 159
Insulin, and environmentally conditioned CNS performance, effects on regulation of carbohydrate metabolism ... 184
Insulin effect, behavior of healthy organism during conditioning of ... 96

L

Learning, adaptive, and psychopathology ... 294
Learning, cybernetic problems of ... 68
Learning motivation, autonomic conditioning as index of aptitude for (Abstr.) ... 163
Locomotor restriction, role in acquisition of motor and cardiac discrimination in the dog ... 277

M

Monkeys, restraining chair for ... 171

N

Neurosis, experimental, interruption of behavior, inescapable shock and ... 285

O

Obsessions, treatment by conditioned inhibition (Abstr.) ... 167
Operant and classical conditioning, psychopharmacological comparison of (Abstr.) ... 169
Operant conditioning in curarized dogs (Abstr.) ... 158
Orienting reactions, children's, modifying instrumentally ... 227
Orienting reflex during waking and sleeping (Abstr.) ... 160
Orienting response, cardiac, and its relationship to cardiac conditional response in dogs ... 138

Orienting responses, habituation of as function of "instructional set" . . 23
Orienting response, habituation of as function of "instructional set" (Abstr.) 161
Orienting response, habituation of to auditory-stimulus sequences in human newborn (Abstr.) 160
Oxygen-conserving reflex, bradycardia of 88

P

Pattern presentation, conditioning of cerebral dysrhythmia induced by 236
Pavlovian, classical conditional reflex, a classical error? (Editorial) 255
Pavlovian Society Meeting, after-dinner talk by Dos Passos 1
Pavlovian Society of North America, report of seventh meeting 248
Pavlovian Society of North America, report of sixth meeting 153
Pentobarbital anesthesia, cardiac inhibition in reaction to stimuli during, in dogs (Abstr.) 169
Phobic reactions and behavior therapy (Abstr.) 162
Pointer dogs, crossbred, effect of person on 273
Polarization, effects of external cathodal on classical motor conditioning in dogs 216
Polarizing current, external negative, effects on classical defensive motor conditioning in dogs (Abstr.) . . . 168
Principles of Automatic Somatic Integrations, by E. Gellhorn (Book review) 251
Probleme der Physiologie des Gehirns, by W. Rüdiger (Book review) 250
Programmer, stimulus, portable solid-state 173
Psychopathology, conditioning, learning and 294
Psychosomatic responses, delayed, role of positive autokinesis in protection by drugs and psychotherapy against 77

R

Restraining chair for monkeys 171

S

Schizokinesis and fractional conditioning (Editorial) 85
Schizokinesis as related to differentiation 245
Schizophrenia, childhood, psychophysiological studies of (Abstr.) 166
Schizophrenics, orienting responses in "process" and "non-process" (Abstr.) 166
Skin response, conditioned galvanic in chick embryo (Abstr.) 162
Sleep, retention of classically conditioned responses during (Abstr.) 161
Steady-potential shifts, cortical, in conditioning 3
Stimulus programmer, portable solid-state 173

V

Vagotonia, psychogenic, in beagle dogs 302

W

Word association, speed of habituation of orienting responses in 23
